

How to Install VLC Player on Firestick

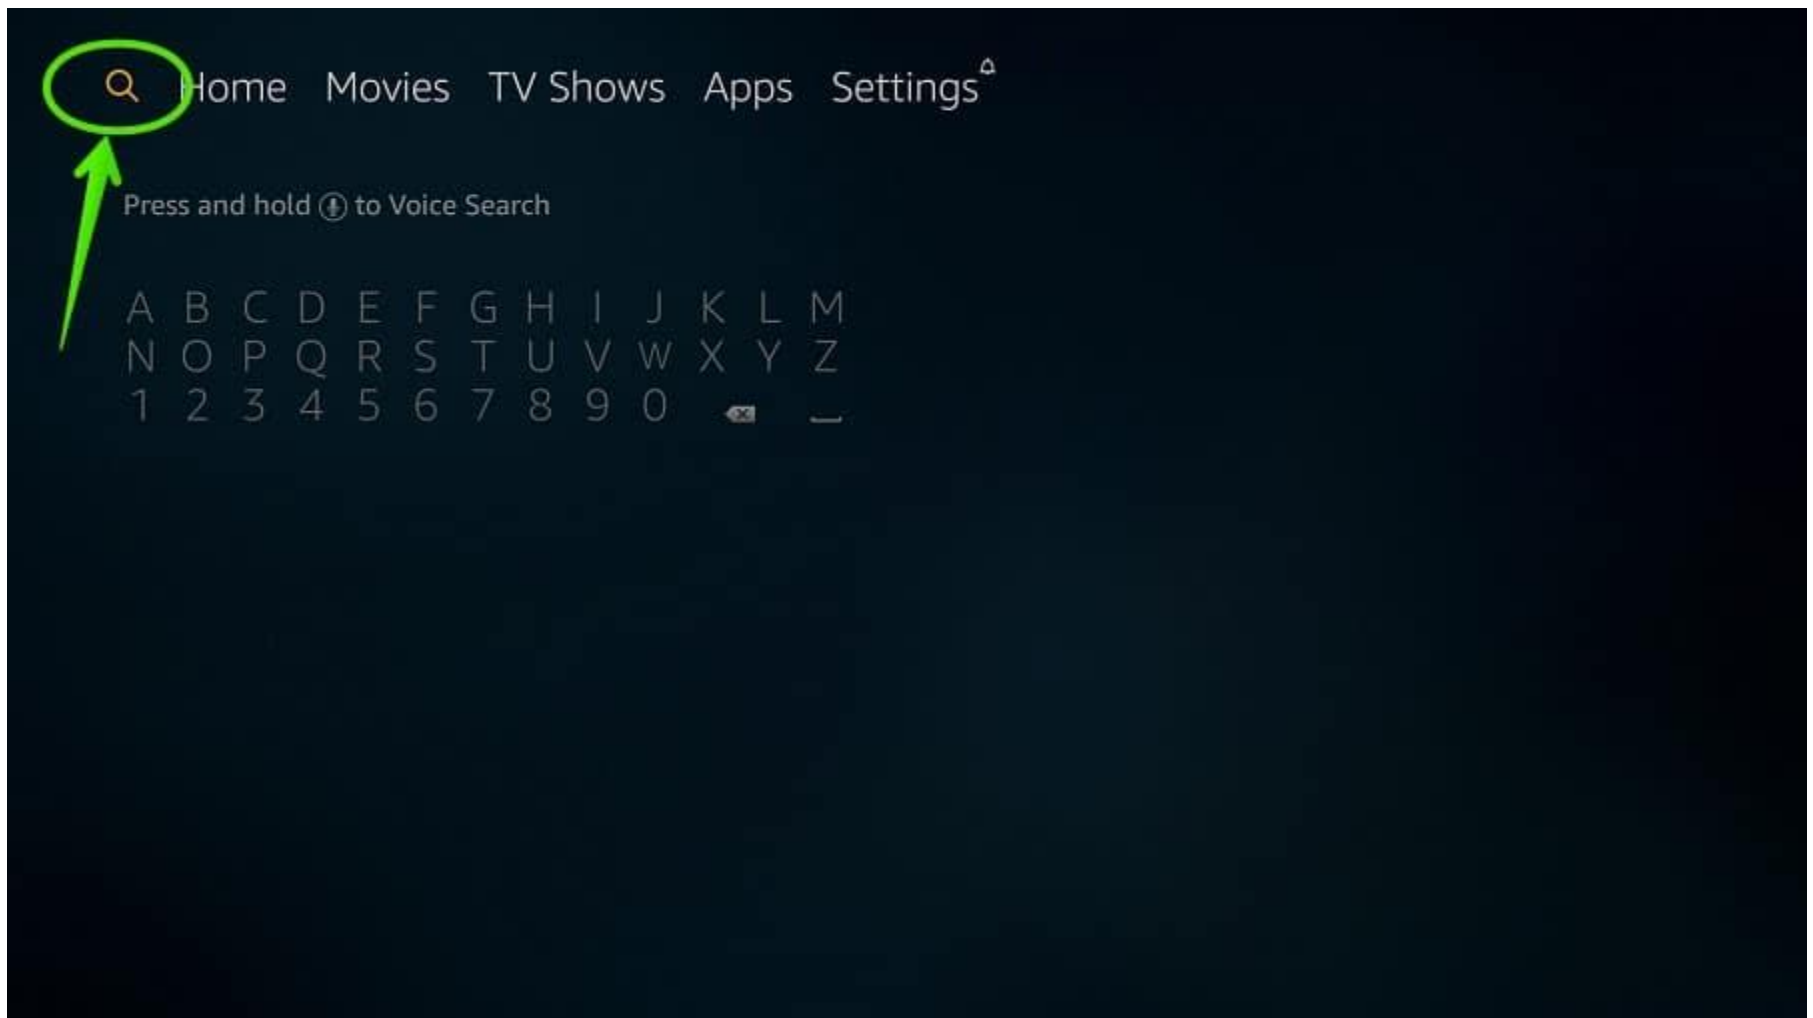

Step 1: Open Firestick make sure you are connected to your WIFI.

This is your HOME page below:

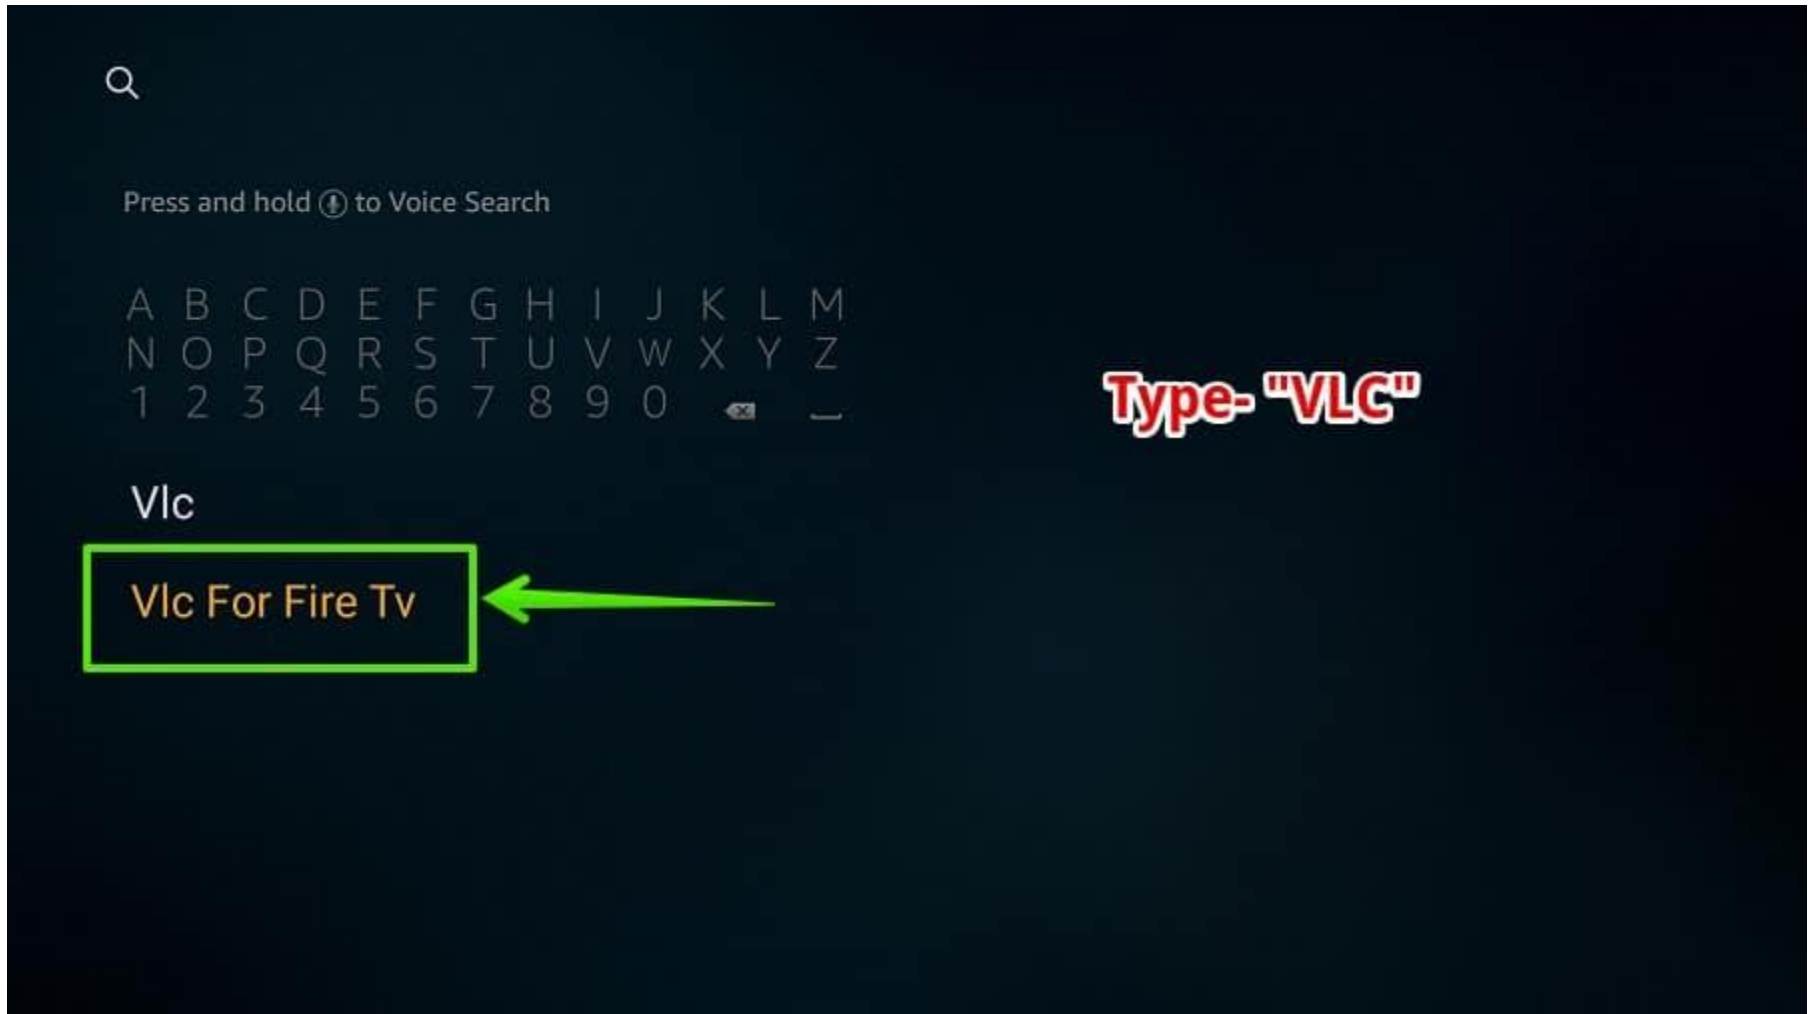

Step 2: Go to the Search option

Using your Fire TV Remote, go to the search option of Firestick.

Step 3: Type "VLC"

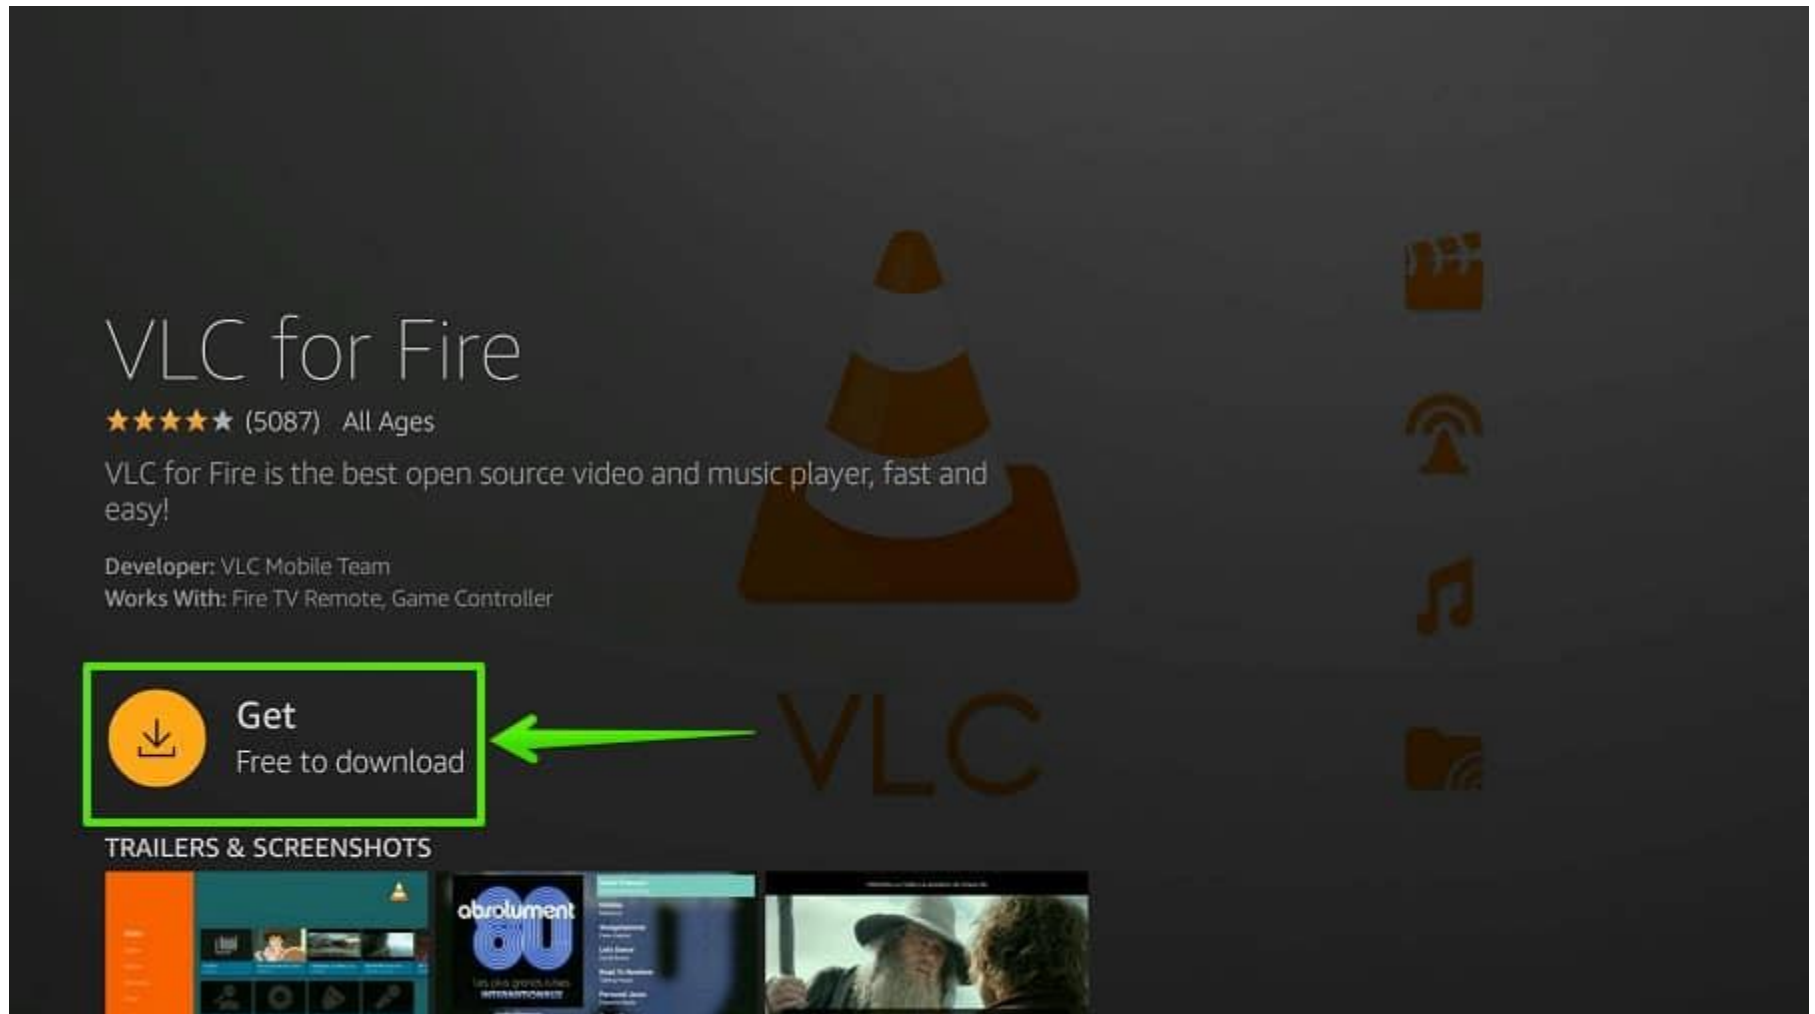

In the search option keyboard will appear now type- **“VLC”** using your Fire TV Remote. Using your Fire TV Remote, select **VLC for Fire TV**.

Step 4: Select VLC Media Player (Orange Safety Cone)

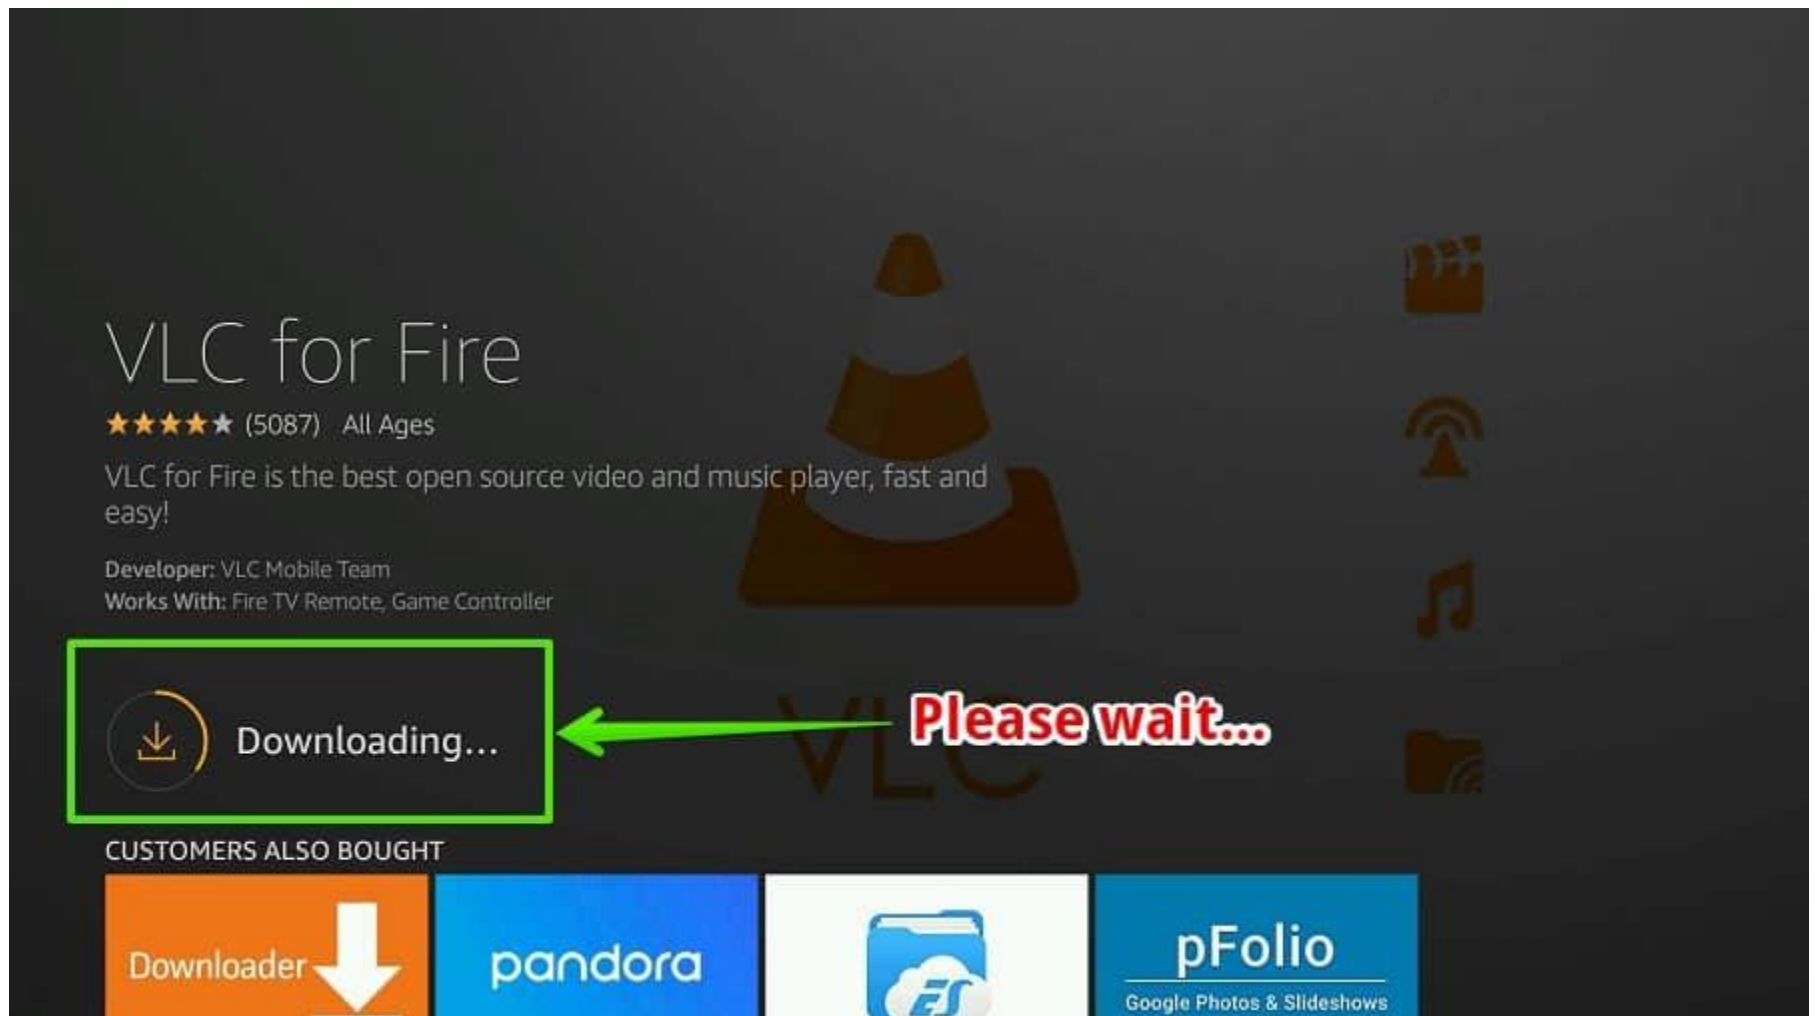

Step 5: Here you will see a “Download” button. **Select Download** if you're installing it for the first time, you'll see the “Get” option. Just select that to begin the installation.

Step 6: Wait...

Just wait for a few seconds. The application is downloading on your Firestick device. It may take up to 50 seconds to download and install.

Step 7: Congratulations! VLC Media Player has been installed on your Firestick. Now, select “Open” to launch

You will get pop up box like below “You MUST allow VLC to access photos, media and files on your device”.

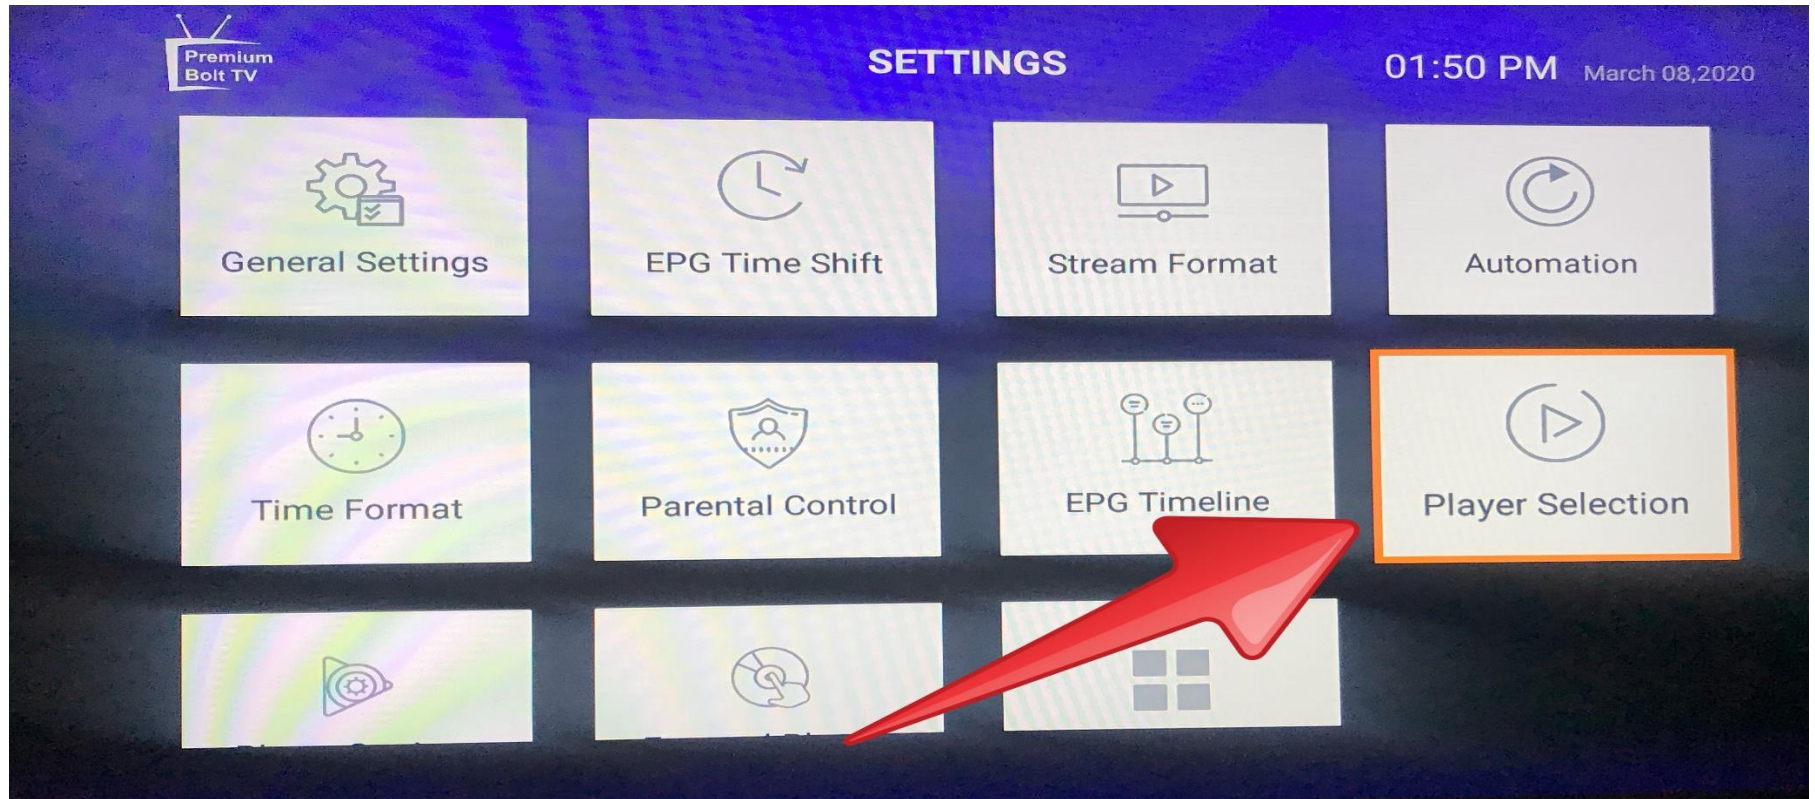

Step 8: Now just Exit, select your home button on your firestick remote.

Step 9: Now proceed to launch the Premium Bolt app.

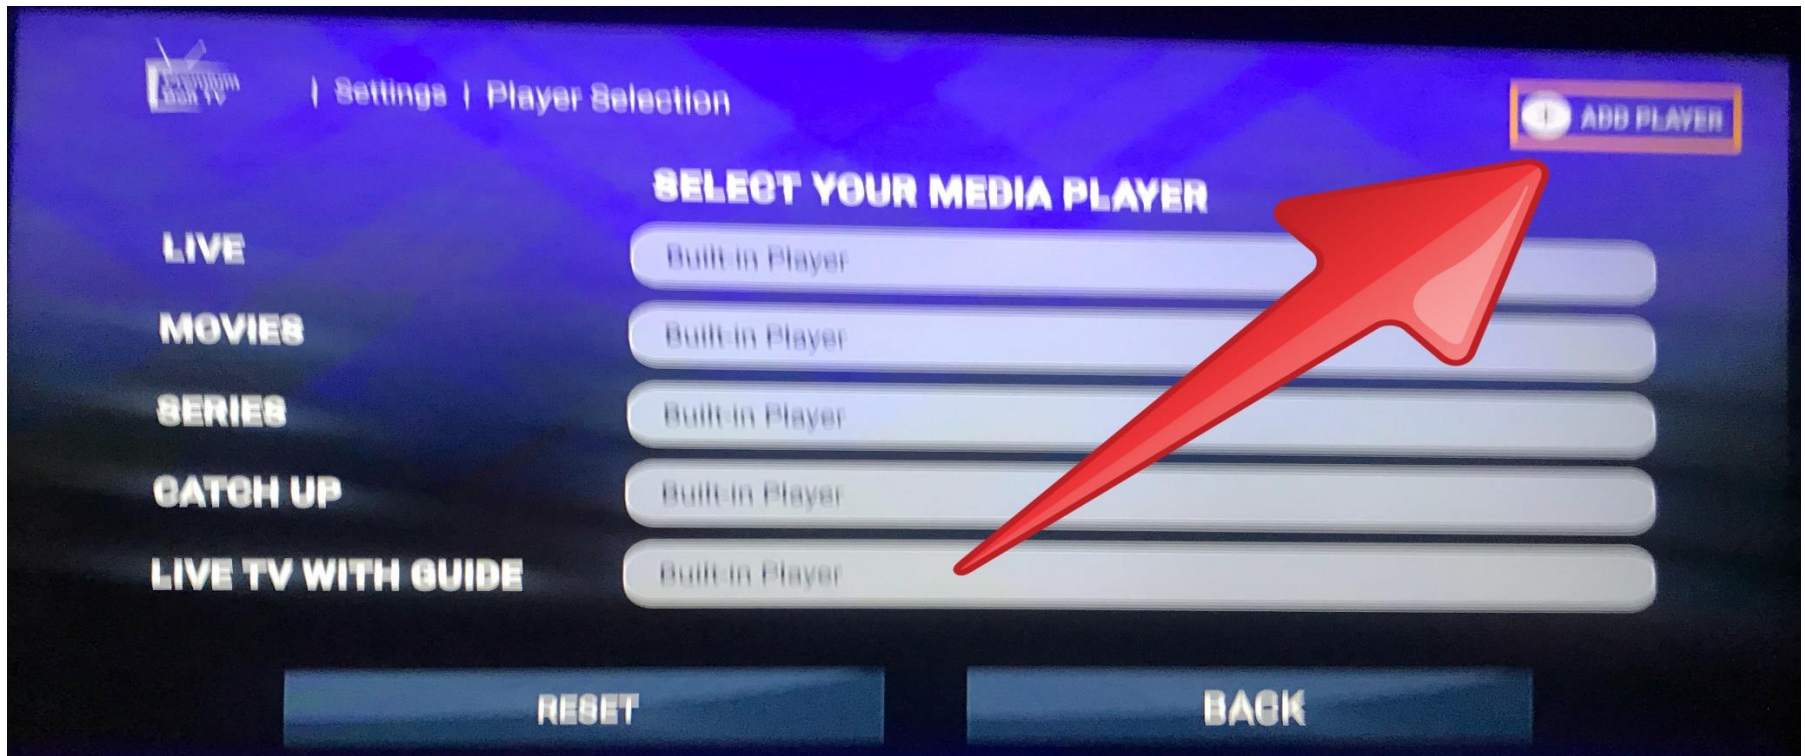

From the main page of app below select SETTINGS on the top right.

Step 10: Now select “Player Selection”.

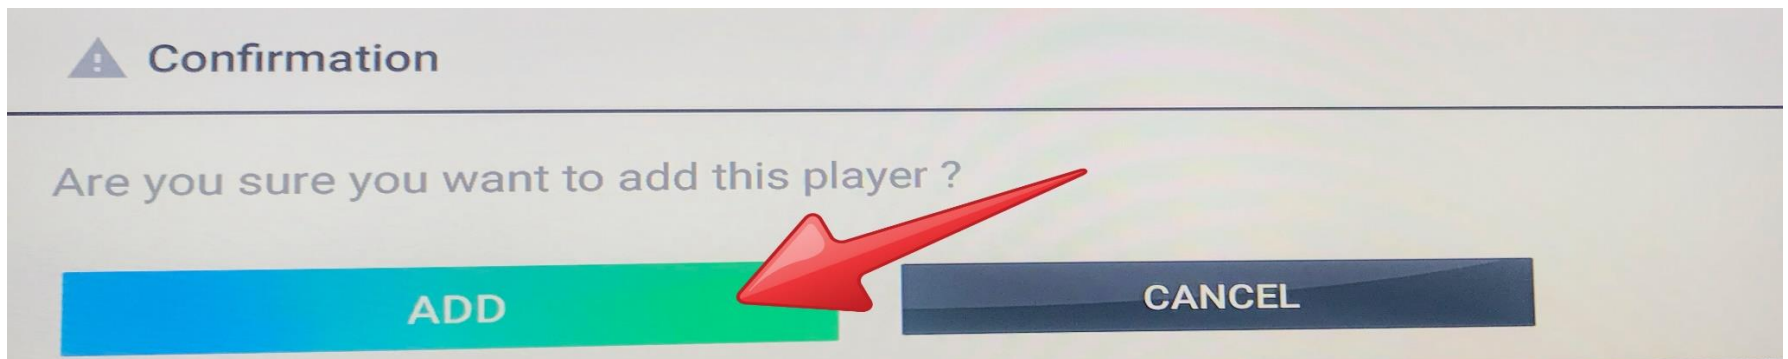

Step 11: Now select “ADD PLAYER”.

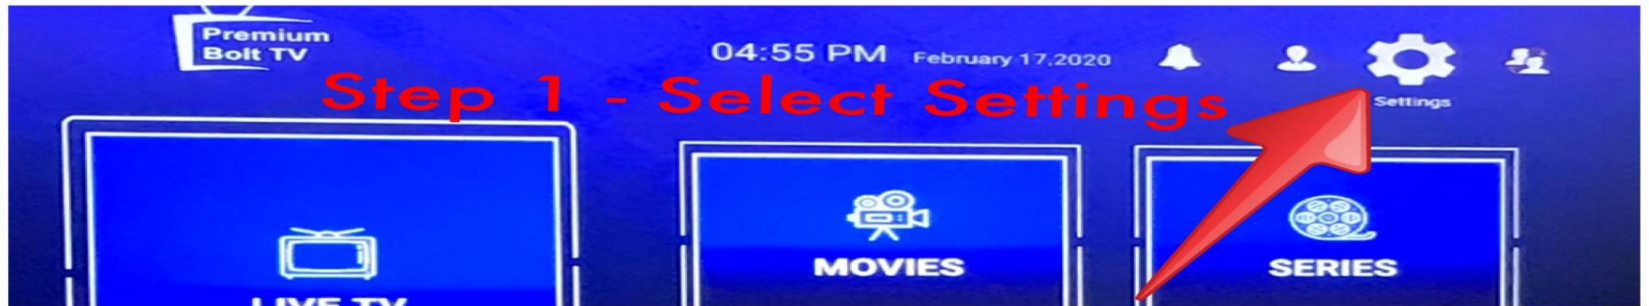

Step 12: Now select “VLC” and select add to add this player.

Arrow back twice on firestick remote and now proceed to step 13 below.

Step 13: Now select Player settings, select Hardware decoder and enable OpenGL (OpenGL pixel format below to help improve streaming).

Congratulations! Setup complete.

Final Words-

To use VLC Media Player option “**long press**” on the Movie Cover Art and select VLC. If you prefer just select movie or series to play with default player not VLC. Enjoy!
