

How to delete & re-add Xtreme or Bolt Service:

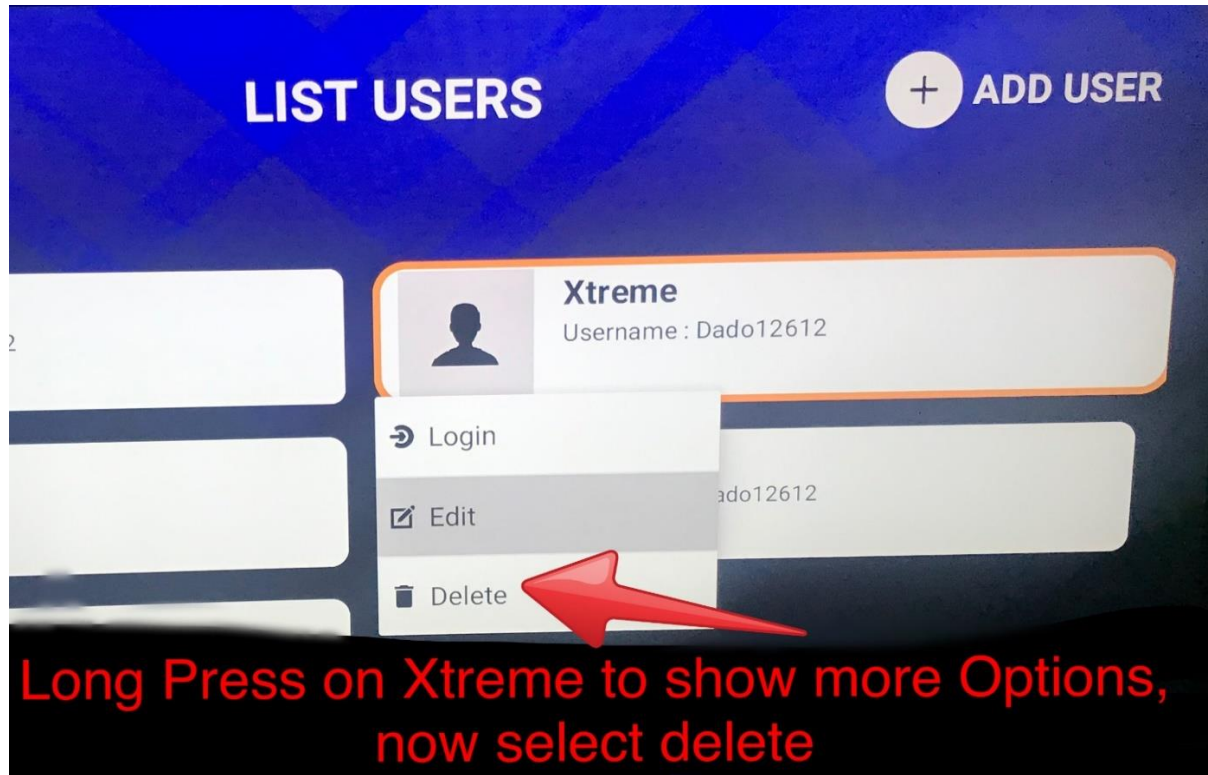

Step 1 – Select Switch Users

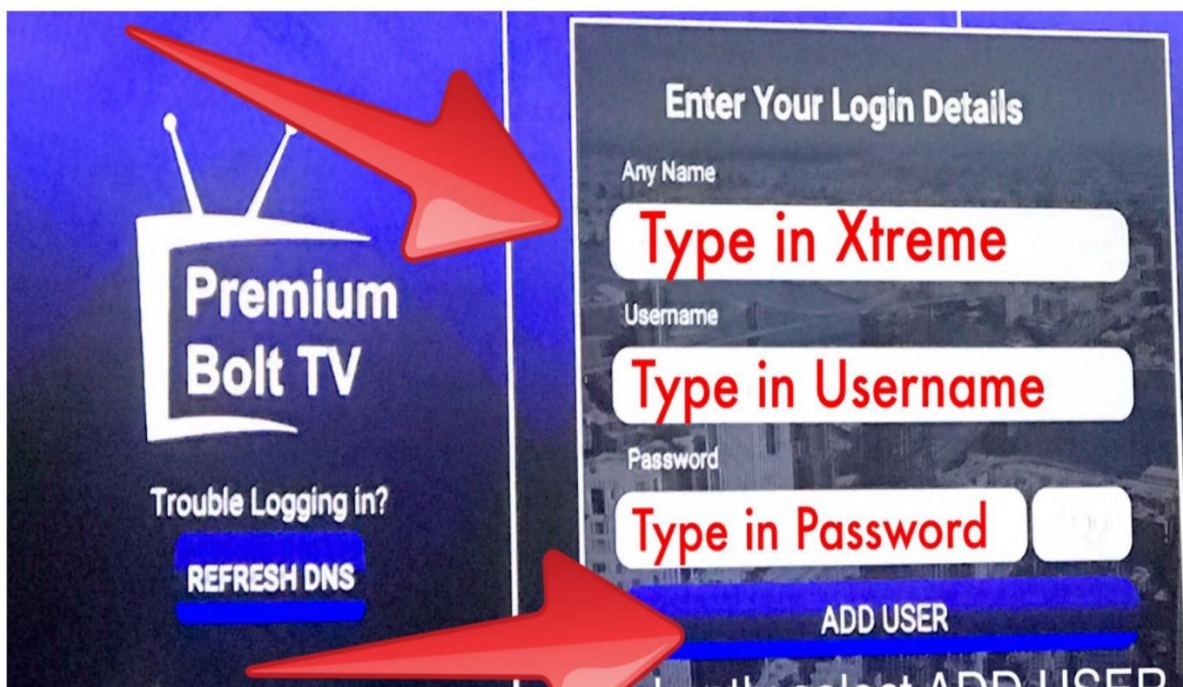

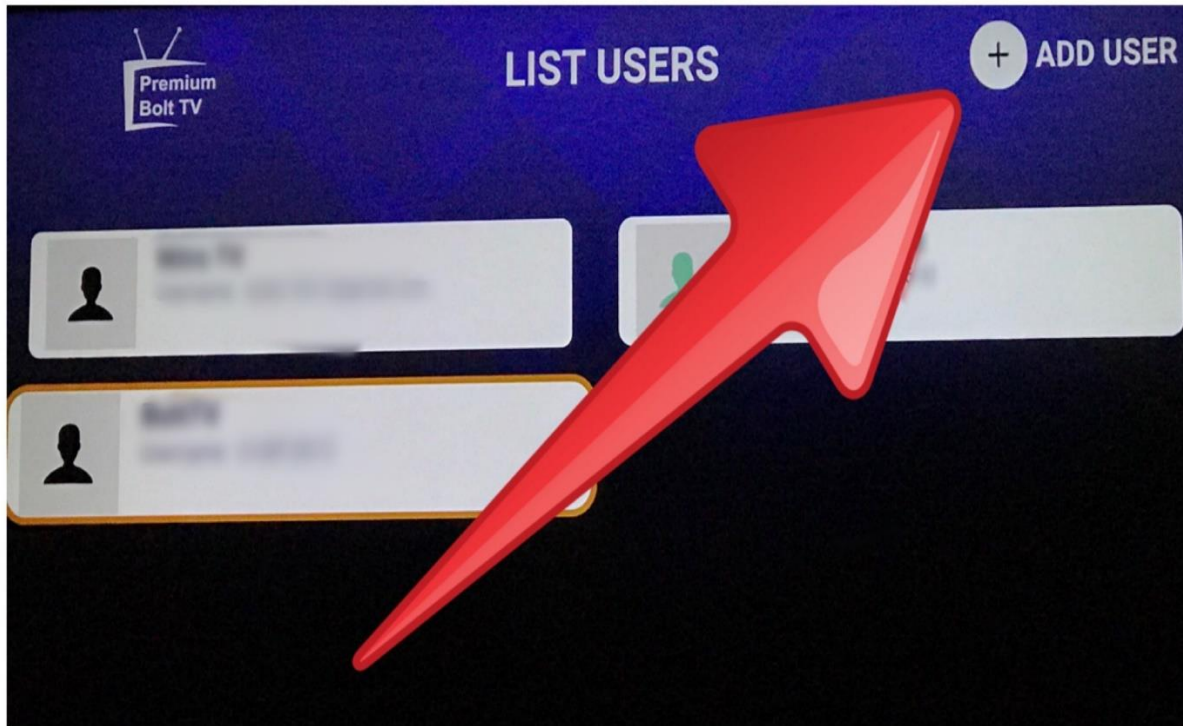

Step 2 – Long Press on User to show more options.

Pop up window will appear, now select delete

and YES to confirm.

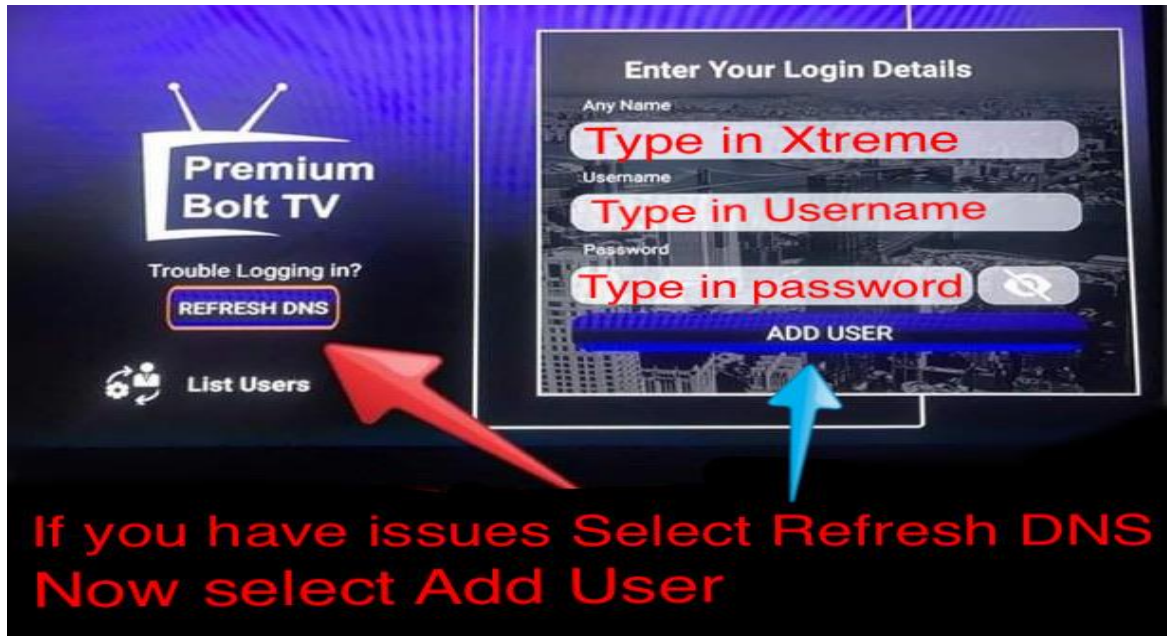

Step 3 – Now select Add User, then enter your Login Credentials

Note: Remember login credentials are case sensitive.

If you have issues you can Refresh DNS, verify that username & Password is entered correctly and select ADD USER.
